DRYiCE™ Software

The AI foundation for the digital enterprise

DRYiCE Software is a division of HCL Technologies focused on building industry-leading software products for transforming and simplifying IT and business operations by leveraging AI and Cloud.

Our vision focuses on:

Enabling a Service
Oriented Enterprise

AI-Led Service
Assurance

Driving Enterprise-Wide
Digital Agility

Business Flow
Intelligence

Value of DRYiCE Software

The ever-shifting market conditions and volatile customer demands make it imperative for enterprises to not only adapt to the changing landscape but also proactively stand up to the challenges by using IT as a strategic partner rather than an enabler.

In this agile digital world, AI and Automation are going to be the key competitive differentiators as they enable enterprises to improve business outcomes and reduce costs. The new age enterprise leaders are looking at the practical implementation of AI and Automation for enterprises to understand how they can seamlessly embark on their transformation journey.

DRYiCE Software is our answer to our client's AI and Automation-based transformation initiatives.

Our exclusive products enable enterprises to operate in a lean, fast, and cost-efficient manner, delivering superior business outcomes. The DRYiCE portfolio focuses on four core areas - AIOps, Service Orchestration, Business Process Observability and Digital Workplace Solution - and is increasingly recognized as the AI foundation of our clients' enterprise solutions through our global delivery capabilities.

DRYiCE Software Portfolio

AIOps PRODUCTS

iAu DRYiCE iAutomate

DRYiCE iAutomate is an intelligent runbook automation product which brings AI and collaboration as key features into the automation domain

MC DRYiCE MyCloud

DRYiCE MyCloud is a proactive multi-Cloud, lifecycle management product that empowers organizations to govern, provision, monitor and manage Cloud infrastructure
